

LED Panel

SCL-P36

Product information

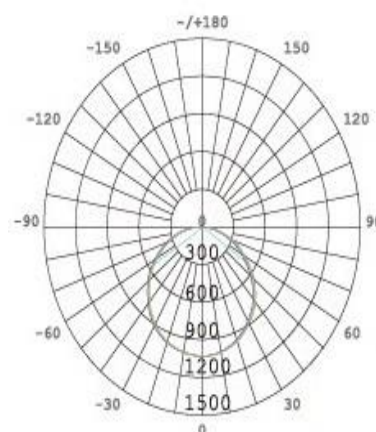

Led panel is made of plastic and aluminium , providing a very efficient cooling due driver supply of high quality.It has a lifespan of 100,000 hours providing all 120,000 cycles/off (on/off).

Application areas

- Offices
- Public and Recreational areas
- Residential areas

Product Performance

Electrical Specification	
Nominal Power	38 W
Input Voltage Frequency	AC 100 - 280V
Power Factor	> 0.95
Total Harmonic Distortion (THD)	< 15%
Optical Specification	
Lumen	3600 lm
LED Color Temperature	3000/4000/5000/6500K
Beam Angle	120°
Lens Clarity	Plastic matt,
Color rendering index (CRI)	> 80
Environmental Specification	
Operating Temperature	-20°C +60°C
IP Rating	IP20
Shell Material	AL+PMMA
Physical Characteristics	
Dimension(mm)	595 x 595 x 18mm
Net Weight	1.4 kg
Warranty and Certifications	
Lifespan	Up to 100 000 h
Warranty	60 months
Certifications	CE, RoHS

AVERAGE BEAM ANGLE (50%) : 114.7 DEG
